HEYVET · AI COPILOT FOR VETERINARY CLINICS

A second pair of eyes for every veterinarian.

The vet speaks. HeyVet writes the record, with the patient's history at hand, and waits for the vet's approval.

TODAY

- Typing during the exam
- Notes after closing time
- Lab values re-typed
- Reminders forgotten
- Hard cases alone

HeyVet AI

ONE RECORD

- Voice → record
- Finance & stock
- Lab from a photo
- Clinic kiosk
- Ask HeyVet AI
- Owner app
- Vaccines & reminders

WITH HEYVET

- Record done during the exam
- Vet approves in one tap
- Lab photo → values in the file
- Owner reminded automatically
- A specialist one request away
